### **PURPOSE OF REPORT/BACKGROUND**

The *Animal Management (Cats and Dogs) Act 2008 (the Act)* requires all dogs over the age of 12 weeks to be registered with the relevant local authority.

Dog registration provides identification, which improves the chances of lost dogs being reunited with their owners, promotes responsible pet ownership and allows Council to provide appropriate management strategies and facilities.

Council undertook systematic inspection programs throughout the 2016-2017 and 2018-2019 financial years and identified that approximately 10-15% of households had unregistered dogs.

Systematic inspection programs for unregistered dogs assist Council in:

- Increasing the number of dogs carrying identification tags;
- Improving Council's ability to locate owners of wandering dogs through registration tags; and
- Minimising the number of impounded dogs that remain unclaimed.

Each systemic inspection program can be undertaken for a period not exceeding 6 months and at least 14 days, but not more than 28 days before the program starts, Council must provide public notice in accordance with the provisions of Section 113, Chapter 5 and Part 2 of the *Animal Management (Cats and Dogs) Act 2008*.

In terms of the program's success to date, Council's total registrations peaked at 33,239 in May 2019 compared to 31,705 and 30,273 in 2018 and 2017 respectively.

While the total registration numbers are a sound measure, there are a number of other indicators that suggest that door-to-door style inspection programs have a positive impact on registration numbers.

To expand on this, between 27 August 2018 and 18 September 2018 the suburb of North Booval was inspected as part of the inspection program. During this period, dog owners within North Booval made 102 animal registration related transactions. In the same period, all other suburbs in Ipswich recorded an average of 15 transactions each.

In terms of registered dog volumes, the suburb of Redbank Plains had 100 animal registration related transactions over the same period. Although Redbank Plains has a little over 7% of the total number of registered dogs, whereas North Booval has 1.6%.

This suggests that this type of high visibility program encourages dog owners to either register their dog, or renew their registration.

### **FINANCIAL/RESOURCE IMPLICATIONS**

The Systematic Inspection Program is resourced by a single funded casual Compliance Officer working 38 hours a week with an annual labour budget allocation of \$80,000.

A high level measurement of the 2,966 new registrations created since the program started, would have resulted in \$200,105 (+\$40,105). Assuming a 25/75 split of entire/desexed dogs and all fees are paid on time, with no further discounts applicable.

### **RISK MANAGEMENT IMPLICATIONS**

There are no risk management implications associated with this report.
